

Maximum Stress, Brain Support, Anti-Aging & More*

Max Stress B™

A Quantaceutical™ Dietary Supplement

Key Benefits

- The **world's first, live-source B vitamins** made from proprietary probiotic fermentation for unparalleled absorption
- International patent-pending technology
- Highly active, "living" B vitamins in their end-chain forms which deliver high cellular resonance*
Other B vitamin products are typically synthetic with no cellular resonance.
- Maximum stress support, anti-aging, high energy, brain rejuvenation, heart health and mood balance*
- Research suggests live sources of B vitamins are safest and most effective, especially in long term use*

*The Completely Live-Source B Vitamin Complex with Amazing Benefits**

*"The world's only, **one-of-a-kind, live-source, end-chain B vitamin complex.** This product is not only one of our very top sellers but also one of the most needed in these stressful times. Feel the difference!"*

The Quantum Nutrient Effect

When quantum-state quality nutrients (exquisitely well grown, free of toxic tag-alongs) are combined together, their effect is far greater than the sum of their individual benefits: The Quantum Nutrient Effect. A **quantaceutical™** is a nutraceutical supplement that delivers the Quantum Nutrient Effect to support optimal health.

Ideal Cellular Resonance

The human cell has a crystalline matrix, which means it has an ideal resonant frequency. Only nutrients from "once living" sources can sustain the ideal resonant frequency of your body's cells.

Quantum-State Nutrients Without the Risk

- No magnesium stearate, *a toxic oil proven to suppress the immune system*
- No animal glandulars *with toxic tag-alongs and animal death hormones*
- No tablets *with toxic tag-along binders and fillers*
- No excipients - *highly questionable (often toxic) fillers and binders, called excipients, are commonly added to nutritional products*

*This statement has not been evaluated by the food and drug administration. This product is not intended to diagnose, treat, cure or prevent any disease.

The World's First Live-Source B Vitamins

Now, *for the first time*, completely natural-source B vitamins are available in **Max Stress B™** derived from proprietary technology using special, healthy probiotic colonies. This can mean a quantum leap in everything that B vitamins do for the body — maximum stress support, anti-aging, high energy, brain support, heart health mood balance and rejuvenation.*

Because of its liquid oral delivery system, this is one product that literally everyone we know who tried it really felt a *significant* difference — a surprising feeling of well being and noticeable mental clarity.*

No amount of synthetic B vitamins can deliver the super energy support you'll experience with just 1/2 teaspoon of **Max Stress B™**. This product nourishes the body, delivering a biophotonic "body of light" only found in "once-living source" nutrients. Synthetic B vitamins — *and all synthetics for that matter* — can actually accelerate aging and degradation of the cell's DNA.

Vital For Robust Health

The whole B-complex family of vitamins — especially folic acid and vitamin B12 — are necessary for optimal health for you and your entire family.* The B vitamins, especially folate, are certainly making a name for themselves in the news these days due to their spectacular effect on literally all organs and glands of the body, especially the brain.*

Get the Whole Complex of Benefits

The B vitamins work together as a team, which is why it is generally recommended to take a supplement with the whole vitamin B-complex family, rather than individual, isolated B vitamins. The entire B family is needed to help keep the body in balance and harmony for great physical, emotional and mental health for you and your family.*

Even if you could eat large amounts of foods rich in B vitamins, such as fruits, vegetables and grains, you would still typically fall short of the desired daily intake of B vitamins. Why? Research shows that the nutrient content of our food has been drastically

decreased due to poor soil health and extensive pesticide use in the U.S. Therefore, one of the best ways to assure you are getting enough B vitamins is to take a live-source B-complex supplement such as **Max Stress B™** every day.

But does your vitamin B complex product contain real B vitamins? *Probably not!*

About 99% of all vitamin B products on the market today are synthetically made in a laboratory. Despite marketing claims, these laboratory-produced vitamins are not natural B vitamins — they're far from it. They are chemically synthesized molecules manufactured in a test tube, typically from coal tar derivatives.

Ouch! These synthetic molecules mimic only one component of the multitude of life-supporting nutrient complexes found in real, live-source B vitamins.

Vastly Superior Benefits

Now, using breakthrough, patent-pending technology, you can receive the vastly superior benefits of natural B vitamins to support your body — *without the synthetics*. **Max Stress B™** is made using special strains of probiotic colonies to produce all natural B vitamins in their most effective, end-chain coenzyme forms.

Test-Tube Vitamin B: No Thanks

The heavily researched benefits of the B complex are actually created by the entire intricate, complex symphony of B vitamins and their supportive co-factors naturally found only in whole nutrient sources, not in isolated, synthesized molecules. In short, test-tube vitamin B complex simply cannot recreate the magnificent synergy of a whole-nutrient vitamin B complex. The whole "B" family - the B-complex and other B-like vitamins - definitely need to be on your "A" list of "must-have" nutrients.

The Natural Super Vitamin B Complex

All together, the entire complex of Super Nutrient B vitamins are present in **Max Stress B™** — naturally combined with dynamic, synergistic co-factors and transporters — a truly 100% natural, whole-nutrient vitamin B complex supplement, delivering safe, effective support for energy, healthy stress management, brain, heart, mood and immune health.*

Max Stress B™ - Ingredients

A Quantaceutical™ Dietary Supplement
2 fl oz/bottle (59 ml) - Serving Size: 1/2 teaspoon (3.5ml)
Servings Per Container: about 17

Vitamin B3 (Inositol Hexanicotinamide)	25mg	125%
Vitamin B5 (Coenzyme A)	2.6mg	†
Vitamin B6 (Pyridoxal-5-Phosphate; Pyridoxamine-5-Phosphate)	2.6mg	130%
Vitamin B12 (5'-Deoxyadenosylcobalamin)	6mcg	100%
Folate (5-methyl, formyl tetrahydrofolate)	417mcg	105%
P.A.B.A. (Para-Aminobenzoic Acid)	12.5 mg	†
Biotin (D-Biotin)	338 mcg	110%
Inositol (Inositol Hexanicotinate)	130 mg	†

Other Ingredients: Purified Water, Certified Organic Alcohol

†Daily Value Not Established

What are "nanized" B vitamins?

The word "nano" means very, very small. A "nanized" formula has been "nanized" or pre-digested into very, very small particles which makes it extremely bio-available.

Max Stress B™ really demonstrates the power of the old saying, it's not what you take, but what you absorb that makes the difference.

Recommended Use

Adults or children (age 4 and up): Take 1/2 teaspoon mixed in 1/4 cup water or juice, 2 times daily. Shake gently before use. Sip slowly for best effect.
